Governor Palin:

HCS CSSB 221(FIN), Sec. 4 p 16 line 13 supports the salmon hatchery training operation at Sitka's Sheldon Jackson Campus.

Please support this $250,000 appropriation.

Sitka Sound Science Center, a 501c3 non-profit, will operate the hatchery as a training facility in cooperation with existing programs at University of Alaska Southeast as well as continuing a relationship with NOAA. This funding is a great start to renew operations on the former Sheldon Jackson College campus' waterfront Sage Building.

The appropriation will help establish new jobs to replace the one hundred lost when SJ closed and will preserve the salmon brood stock now in place at the hatchery.

This is a good investment that will produce returns in fish, jobs and scientific research.

Respectfully,

John Stein

FOR IMMEDIATE RELEASE
April 14, 2008
No. 7

WAL-MART AND MAYORS AGAINST ILLEGAL GUNS ANNOUNCE "RESPONSIBLE FIREARMS RETAILER PARTNERSHIP": A 10-POINT VOLUNTARY CODE

The Voluntary Code – A Set of Retail Best Practices – Goes Beyond What is Required by Law

Wal-Mart and the bi-partisan coalition of Mayors Against Illegal Guns today announced that Wal-Mart, the largest seller of firearms in the nation, has adopted the new Responsible Firearms Retailer Partnership, a 10-point code that will help ensure that guns do not fall into the wrong hands. The Responsible Firearms Retailer Partnership, created by Mayors Against Illegal Guns and Wal-Mart, is a set of policies that will be implemented over time that includes video recording of sales, rigid controls on inventory, checks that gun purchasers are not misrepresenting themselves and the development of a first-of-its kind computerized crime gun trace log for retailers. The new crime gun trace log will flag purchases by customers who have previously bought guns later recovered in crimes. Mayors Against Illegal Guns and Wal-Mart developed the code to curb some of the most common ways guns end up in the hands of criminals. Wal-Mart will implement the 10-point code at its stores where firearms are sold. The announcement was made at the Mayors Against Illegal Guns National Summit, where representatives from 60 cities gathered to discuss ways to keep guns out of the hands of criminals, held at the Ronald Reagan Building and International Trade Center in Washington, D.C.

"We know the ways that guns can end up being used in crimes. Now a responsible and innovative company has stood up with our over-300 member coalition of mayors to strengthen their sales practices to keep guns out of the hands of criminals," said New York City Mayor and coalition co-chair Michael R. Bloomberg. "I've always believed in leading by example, and Wal-Mart has again demonstrated why it's a great American company. The Responsible Firearms Retailer Partnership makes good sense – it will have no impact on a well-intentioned and law-abiding gun buyer – but will help keep Americans safer."

"Wal-Mart currently uses a strong point of sale system that allows us to serve the many hunters and outdoorsmen who've made us their retailer of choice, while also ensuring the responsible sale of firearms," said JP Suarez, senior vice president and chief compliance officer, Wal-Mart. "This code is a way for us to fine tune the things we're already doing and further strengthen our standards. We hope other retailers will join us in adopting the code."

"Partnerships like this one emphasize our mission to keep illegal guns off our streets, and reinforces that we are not cracking down on legal gun owners and the Second Amendment," said Boston Mayor and coalition co-chair Thomas M. Menino. "This is about public safety and I want to thank Wal-Mart for taking responsibility and being a leader in this area. This code of contact will have no impact on the rights of responsible gun owners, but will help mayors and our law enforcement stop the proliferation of illegal guns."

The Responsible Firearms Retailer Partnership is designed to strengthen the points in the gun purchasing system that criminals have exploited in the past. According to the US Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), 46% of its criminal gun trafficking investigations involved straw purchasers, where someone who is not legally allowed to purchase a firearm does so through the use of a proxy, known as a straw buyer.

Examples of the provisions in the Responsible Firearms Retailer Partnership intended to deter and stop illegal purchasers are videotaped sales, increased monitoring of fake IDs, the crime gun trace log, and increased training for employees to spot illegal purchases. Additionally, the inventory controls and increased physical security for firearms in the Responsible Firearms Retailer Partnership are intended to stem lost and stolen guns, which ATF reports often make their way into the illegal market.

The 10 points of the Responsible Firearms Retailer Partnership are:

1. **Videotaping the Point of Sale for All Firearms Transactions.** Participating retailers will videotape the point-of-sale of all firearms transactions and maintain videos for 6 months to deter illegal purchases and monitor employees.

2. **Computerized Crime Gun Trace Log and Alert System.** Mayors Against Illegal Guns will develop a computerized system that participating retailers will implement over time to log crime gun traces relating to the retailer. Once the program is in place, if a customer who has a prior trace at that retailer attempts to purchase a firearm, the sale will be electronically flagged. The retailer would have discretion to proceed with the sale or stop the sale.

3. **Purchaser Declaration.** For sales flagged by the trace alert system, participating retailers will ask purchasers to fill out a declaration indicating that they meet the legal requirement to purchase the firearm.

4. **Deterring Fake IDs.** Participating retailers will only accept valid federal- or state-issued picture IDs as primary identification. Retailers will utilize additional ID checking mechanisms.

5. **Consistent Visible Signage Consistent Visible Signage.** Participating retailers will post signage created by the Responsible Firearms Retailer Partnership to alert customers of their legal responsibilities at the point-of-sale.

6. **Employee Background Checks Employee Background Checks.** Participating retailers will conduct criminal background checks for all employees selling or handling firearms.

7. **Employee Responsibility Training.** Participating retailers will participate in an employee responsibility training program focused on deterring illegal purchasers. The Responsible Firearms Retailer Partnership will create an online training system based on Wal-Mart's training program.

8. **Inventory Checking.** Participating retailers will conduct daily and quarterly audits. Guidelines will be based on Wal-Mart's existing audit procedures.

9. **No Sales Without Background Check Results.** Participating retailers would prohibit sales based on "default proceeds," which are permitted by law when the background check has not returned a result within 3 days.

10. **Securing Firearms.** Participating retailers will maintain firearms kept in customer accessible areas in locked cases or locked to racks.

Participating retailers will phase in the provisions of

Responsible Firearms Retailer Partnership over time.

A new national poll conducted jointly by Greenberg Quinlan Rosner Research and The Tarrance Group and released last week found that Americans overwhelmingly support measures like those included in the Responsible Firearms Retailer Partnership. For example, 91 percent of Americans favor requiring gun stores to do background checks on employees. According to the poll, 93 percent of gun owners said being video taped in a store while purchasing firearms would make no difference to them or would make them more likely to purchase a firearm from that retailer.

I just received a call directly from Lyda asking to speak with you again and stating that she had left the same message this morning and had not gotten a response back from this office. Lyda does not want to speak with staff.

Lyda indicated that she was preparing to leave on the plane which I wanted you to know as it sounds like she will be on your same flight. Thanks, Janice

Governor:

One thing we may be able to do to help our soldiers (that at least one other state) has done is donate old cell phones and blackberries to "Cell Phones for Soldiers". They take the old phones, give them to a recycler, and use the payment from the recycler to buy prepaid calling cards for troops to call their families while overseas.

Linda / Annette:

Any thoughts?

Weak. Amazing how much faith is/was put into Meyer through all this, yet he isn't the type to want to be held accountable, just as we found out last year. Surely he knows his budget isn't going to stay un-touched? Pls make sure you "communicate" that to him.

Good Morning Governor,

I thought you should see this article (link below) that was in yesterday's Frontiersman. About two thirds into the article this Wasilla constituent says that she has contacted the Governor's office and will continue to email every day until she gets a response. Since her son is in the Marines I gave her initial correspondence, which was sent last week, to Senator Murkowski's office in Wasilla. I spoke with Senator Murkowski's office again this morning; they are on top of this and will be contacting her directly. I also called her myself and told her the steps our office had taken.

Just wanted you to be aware in case you are asked about it.

Governor:

Thanks. I checked with Roger at DOTPF and the release has not been sent out yet. We'll make that change.

Jim, Captain Falvey, and I will be meeting this week to talk about getting the winter schedule out in July, about 6 weeks early.

Randy

J- pls sched bill signing for right after dana's event- we'll run to that Anchorage eye conference and sign bill, then get on king air for Juneau so we don't have to arrive so late that evening in Juneau.

Todd- what time does Willow wrap up her bball games on Sautrday? We'll leave for Juneau right after that (stopping in Anchorage for a bill signing - something to do with donating eye glasses). This is after Dana Lipse's ribbon cutting event for her new shop in Big Lake.

Congratulations on picking up the Daily News this morning and NOT finding another story on the business license e-mails. I figure it's one of two reasons: 1) Wesley never had anything more, and was just trying to annoy you (not an unheard of tactic); or 2) He wanted to do another story and ran out of time or his editors shut it down because it was nothing new. Either way, good chance this is the end of it.

Privileged or Personal Material Redacted
